Dear: Ms. Abaid:

I am writing to request info for Filing Habeas Corpus U.S.C. 42, 1983 as well as a request for Certiorari to the Supreme Court after being denied further Appellate review in the Supreme Judicial Court.

I need A package with the rules and forms ect. that I've heard, think you gave me in the past.

I was wondering if I can renew my Habeas filed in 2003 or around Feb 2004; I remember your name from my docket sheet Judge Tauro was my Judge and magistrate Margaret Bowler over saw the Case and I was ultimately denied w/o prejudice for failure to exhaust State →

—remedy's, which has been done at this point with the SJC refusal to hear further review.

Please Send me Any + all information you have available along with any advice or assistance about whether I - being indigent am entitled to legal Counsel at the Federal level and does it come from C.P.C.S. or is there a federal program for Court appointed Attorneys?

Please assist me in this situation AS right now AS before in 2004 I am pro-Se until I may acquire Counsel from wherever I'm writing C.P.C.S. About Counsel AS well, but I need my Case Habeas reopened if that's possible without re filing Although I'll be happy to refile I Just need instructional information.

Thank you for your help
